Objective/Personal statement

Seeking a position to greatly utilize my 30 years of boating experience to benefit owners with quality service at a level that should be expected in a luxury yacht. I am ambitious, hardworking and professional. I also take great pride in the outcome of my work while ensuring effective communication and documentation. I have the ability to contribute to any team as a team player and work efficiently while managing time and productivity. I am skilled with people relations as well as leading by example and creating a positive work environment. I am always eager and ready to work. My engineering and technical background affords me an edge over most captains in the industry saving owners time and money.
